

CHALLENGE: WHAT'S IN A NAME?

In this mini challenge you need to take the following variables:

```
$firstName = "John"
```

```
$middleName = "Henry"
```

```
$lastName = "Green"
```

```
$age = 42
```

and form the following sentence and echo it to the browser:

```
John Henry Green is 42 years old.
```

Note the full stop!
